BANNER SALVE

The most healing salve in the world.

This week Charles H. Daves asks the republican convention, through the columns of the HERALD, for the nomination for prosecuting attorney. Mr. Daves is an active, aggressive young man. He is now city attorney of Cape Girardeau and has lost but one case that he has tried within the past year, and has convicted almost one hundred persons of crime or misdemeanor. Who can beat this record? He will make a thorough campaign of the county, addressing the people in both English and German, and he speaks both languages fluently. Charley is a good talker, a good republican, sober and industrious. If he is the nominee of the republican party for prosecuting attorney he will be a hard man to beat, in fact, we think that if nominated he will be elected.

The name of R. M. Tirmenstein appears in our announcement column this week as a candidate for county collector. Mr. Tirmenstein has had every experience necessary to qualify him for this position. He was in the mercantile business in this city for several years and the people know he has business ability. He is sociable and accommodating, and for a number of years secretary of the republican township committee of this township. Bob has never been found wanting in his republicanism, and if nominated will be elected for he is a hustler.

G. F. SEIMERS signifies his willingness to serve the people of this county as county treasurer by having his name placed in the proper column in this week's issue of the HERALD. Mr. Seimers comes from Hubble township where they roll up a strong republican majority and his delegates will bring up a solid front for him. He has been before the convention before and is a true republican. Should he be the choice of the convention we will have a good treasurer, and a man who will do his duty.

### Climate and Crop Bulletin

COLUMBIA, April 1.—Except in some of the southern counties, where heavy rains kept the ground too wet to work, the weather during March was generally favorable for farm work and for the growth of wheat and grasses. There were a few quite cold days, but the month on the whole averaged warmer than usual. In some of the northern counties the precipitation, up to the 28th, was exceptionally light, some localities receiving less than half an inch, but in most districts there was sufficient for present needs, though not enough to moisten the subsoil. In the southern portions of the state the rainfall was much heavier, some localities receiving over 6 inches.

In a majority of the central and northern, and also in many of the southern counties, the bulk of the oat crop has been sown, with the soil in good condition, and some oats are up, but in portions of the southern sections the ground has been too wet. Some correspondents report the acreage reduced owing to the scarcity and high price of seed. Considerable gardening has been done, many early potatoes have been planted and much plowing done for corn. In a few of the central and western counties a little corn has been planted. Some flax has been sown in the southwestern, and a few melons planted in the southeastern counties. In a few of the northern and eastern counties wheat suffered to some extent from lack of moisture, but in most counties the crop looks well and in many its condition is much above the average. Clover is in good condition in some districts, but in many counties it was nearly or quite killed out by the recent drouth. Many meadows will be plowed up. Grasses have generally started well, except in a few of the northern counties, where it has been too dry, and in some localities stock is now on pasture. Correspondents in a few of the southern counties report that peaches have not been greatly injured, and there will probably be a few in other sections. The early varieties are now in bloom in the extreme southern counties. Apples promise a good crop, but it is believed that in most sections small fruits will be light, owing to the drouth last season.

What a lot of queer stories would be given to the world! What a tale the mantel clock in the parlor could tell of quarreling and kissing and making up! What a lot of good dinners the dining-room clock has seen eaten, with never a mouthful for itself! And the dairy girl clock in my lady's boudoir—how many secrets it must know!
